Special Trade Alert: 11-8-18

Dear Subscribers

A number of our positions remain in the red.

Many of them have charts that look increasingly constructive and lead me to believe that they will soon be winners.

However, two of them, namely US Steel (X) and ArcelorMittal (MT), are not participating in this internal building of momentum.

Put simply, these charts do NOT look promising. I absolutely HATE losses, but when we get to the point at which it is clear that a loss is only going to get larger, it's time to get out.

Action to Take: Sell US Steel (X)

Action to Take: Sell Arcelor Mittal (MT)

I'll have a full market update to you later today after the market closes.

Best Regards,

Graham Summers
