## **Trade Alert: Sell URA, CCJ, KOL, and SSRI**

Dear Subscribers

I am increasingly concerned that we are going to see the \$USD spike higher in the near-term. This is going to hurt numerous "risk on" plays. So I'd like us to close them, lock in our gains, and then revisit them once the smoke clears.

With that in mind we are closing:

- The Uranium ETF (URA) for a 9% gain.
- Cameco (CCJ) for a 7% gain.
- The Coal ETF (KOL) for a 15% gain.
- Silver Standard Resources (SSRI) for a 10% gain.

**Action to Take: Sell the Uranium ETF (URA)**

**Action to Take: Sell Cameco (CCJ)**

**Action to Take: Sell the Coal ETF (KOL)**

**Action to Take: Sell Silver Standard Resources (SSRI)**

I'll have my double length weekly market update to you later today as promised.

Regards

Graham Summers

Chief Market Strategist
