Special Trade Alert: 8-15-18

Dear Subscribers

The markets are potentially entering a deflationary downward spiral.

The outcome will be the same: the Fed will be forced to walk back QT and its rate hikes... but until then, the markets could be a REAL bloodbath.

With that in mind we're opening our Crash hedges.

PLEASE NOTE THESE ARE HEDGES SO KEEP THESE POSITIONS RELATIVELY SMALL.

Action to Take: Buy the UltraShort Brazil ETF (BZQ)

Action to Take: Buy the UltraShort China ETF (FXP)

Action to Take: Buy the UltraShort Oil ETF (SCO)

Action to Take Buy the Short-Term VXX ETN (VXX)

I'll have a full market update to you later today, for now, the game is the same: the markets are now coming after the Fed big time. The Fed is going to HAVE to reverse course or risk triggering a 2008 type crisis.

As soon as the Fed reverses course, inflation trades will go to the moon. The market is now so lopsided that there is the potential for truly massive upside.

However, we need to have hedges in place to protect us from further downside. This is why we're engaging our Crash trades.

More to come soon...

Best Regards,

Graham Summers
Chief Market Strategist
