Special Trade Alert: 9-6-17

Dear Subscribers

Silver popped this morning. It is now ready to follow Gold in the coming correction.

Let's use this to lock in some more gains from our precious metals portfolio.

As I write this we're up 9% on NGD, 7% on ABX, 4% on SIL and 8% on SSRI.

Let's lock these in.

Action to Take: Sell New Gold (NGD)

Action to Take: Sell Barrick Gold (ABX)

Action to Take: Sell the Silver Mining ETF (SIL)

Action to Take: Sell Silver Standard (SSRI)

We continue to hold Wheaton Precious Metals and First Majestic Silver as these positions are in the red. We will be averaging into them once the correction is over thereby lowering our buy price to prepare for the next leg up in precious metals prices.

Also, I will have this week's *Private Wealth Advisory* to you later today.

Best Regards,

Graham Summers
Chief Market Strategist
Phoenix Capital Research
