Market Update: Sell VGZ, AG, GDX and CORN

Dear Subscribers

Despite inflation soaring in the system and the US Fed's balance sheet exceeding \$3 trillion for the first time in history... miners are getting slammed. The technical to the charts has been severe in the last few days.

It's time to get out.

Action to Take: Sell Vista Gold (VGZ)

Action to Take: Sell First Majestic Silver (AG)

Action to Take: Sell the Gold Miners ETF (GDX)

These setups all looked great just a few days ago. But the selling pressure in the sector is extreme. Let's get to the sidelines.

Elsewhere, Corn is taking it on the chin. The technicals here have also been greatly damaged.

Action to Take: Sell the Corn ETF (CORN)

Something big is brewing in the financial system. It's not yet clear what it is, but the selling pressure in these sectors is not normal by any means.

Best Regards
