## **Market Update: Sell EUO**

Dear Subscribers,

The family emergency I referred to last week pertained to my own health.

I'm having some health concerns and my Doctor has ordered me to refrain from work and to rest as much as possible. For this reason I was unable to publish any new issues of Private Wealth Advisory in the last few weeks.

Rest assured, I'm now in recovery and will likely be much better this time next week. So the next issue of Private Wealth Advisory will be published next Wednesday after the market closes.

My sincere apologies for all of this. I will be extending all of your subscriptions by one month to make up for this down time.

In the meantime, our UltraShort Euro ETF (EUO) is up 9%. Let's lock in this gain.

**Action to Take: Sell the UltraShort Euro ETF (EUO).**

Graham Summers
