Market Update: Sell Half of Remaining EEV, BZQ, SRS, and SKF Positions

Dear Subscribers

The market implosion has pushed many of our Crisis Trades well up into the double digits.

I'm suggested you sell HALF of your remaining positions in:

Action to Take: Sell half of your position in the UltraShort Emerging Markets ETF (EEV)

Action to Take: Sell half of your position in the UltraShort Brazil ETF (BZQ)

Action to Take: Sell half of your position in the UltraShort Real Estate ETF (SRS)

Action to Take: Sell half of your position in the UltraShort Financials ETF (SKF)

This will leave 25% of our initial position in EEV, SRS, and SKF, and 50% of our initial position in BZQ.

Good Investing!

Graham Summers
