Market Update: Sell Timber ETF (CUT)

Dear Subscribers

Bernanke has officially gone totally "all in" on his money printing madness. There is no reason for QE 4 when QE 3 was announced less than three months ago.

With that in mind, our Timber ETF (CUT) is now up 6% in a month and a half.

Let's lock in this gain.

Action to Take: Sell the Timber ETF (CUT)

Good Investing!
