Market Update: SHORT DB, STD, HBC, BCS and Buy GLL and ZSL

Dear Subscribers

Europe's banking system is now in a free-fall again.

It's time to re-open our European bank shorts.

Action to Take: SHORT Deutsche Bank (DB)

Action to Take: SHORT Santander (STD)

Action to Take: SHORT HSBC (HBC)

Action to Take: SHORT Barclays (BCS)

I also suggest opening several precious metals shorts as that space is being hit hard due to liquidations.

Action to Take: Buy the UltraShort Gold ETF (GLL)

Action to Take: Buy the UltraShort Silver ETF (ZSL)

I'll have the next issue of *Private Wealth Advisory* to you after the market closes today.

Good Investing!
