Market Update: Sell the UltraShort Silver ETF (ZSL)

Dear Subscribers

Silver has cratered in the last 48 hours.
As I write this, we're already up 6%
on our UltraShort Silver ETF.

While Silver could potentially fall
a bit more, this is a nice gain for just
two day's time.

Let's lock it in.

Action to Take: Sell the UltraShort Silver ETF (ZSL)

Good Investing!
