

PRIVATE WEALTH ADVISORY

A PHOENIX CAPITAL RESEARCH PUBLICATION

FEBRUARY 9, 2011

Dear Subscribers

The US Treasury market is overdue for a bounce. With that in mind, we're closing out our **UltraShort Treasury ETF (TBT) now.**

I intend to have us re-visit this investment again shortly, once the bounce is over. But we've made 7% in two months here and I don't want these gains wiped out in a bounce.

Action to take: UltraShort Treasury ETF (TBT) now.

Good Investing!
