Market Update: Cover EUFN

Dear Subscribers

European financials continue to take it on the chin. We're now up 8% on our European Financials SHORT in just a little over a month.

However, we're coming up on support here. I think we could see a bounce. So let's lock in this gain and revisit this trade when the next leg down begins.

Action to Take: Cover your ENTIRE European Financials SHORT (EUFN)

Best Regards

Graham Summers
