## **Market Update: Buy BZQ, EEV, and add to GLL**

Dear Subscribers

The markets are flashing MAJOR warning signals that I have not seen since 2008.

For one thing, our Gold Trigger has just flashed a SELL. This has only happened once in the last ten years: and that was before the 2008 Crash.

Secondarily we have weekly SELL signals on the emerging markets, particularly Brazil (EWZ) and the Emerging Markets ETF (EEM).

**Action to Take: Buy the UltraShort Brazil ETF (BZQ)**

**Action to Take: Buy the UltraShort Emerging Markets ETF (EEV)**

**Action to Take: Add to your UltraShort Gold ETF (GLL)**

Best Regards

Graham Summers
