## **Market Update: Sell BZQ**

Dear Subscribers,

The market has collapsed as forecast. However, by the look of things, we're a little overstretched to the downside.

With that in mind, we're closing our UltraShort Brazil ETF (BZQ). As I write this Wednesday night, we're up 12% on this position in just one week's time.

## **Action To Take: Close the UltraShort Brazil ETF (BZQ)**

I'm watching the markets closely and will issue updates as needed on our other positions.

Best Regards,

Graham Summers
