Market Update: SELL FXP, EEV, BZQ

The market is falling nicely as forecast.

Due to our averaging in our Crisis Trades by doubling down on the price, several of our positions are now up.

Let's lock in those gains!

Action to Take: Sell the UltraShort China ETF (FXP)

Action to Take: Sell the UltraShort Emerging Markets ETF (EEV)

Action to Take: Sell the UltraShort Brazil ETF (BZQ)

I'll have a new issue of PWA to you tonight.

Good Investing!
