## **Market Update: SELL FXP, EEV, BZQ**

Dear Subscribers,

The market has collapsed as expected. As I write this, we're up 9%, 7%, and 9% on our three emerging market shorts.

Not bad for two days' work.

Let's lock in those gains ahead of the weekend.

**Action to Take: SELL the UltraShort China ETF (FXP).**

**Action to Take: SELL the UltraShort Emerging Markets ETF (EEV).**

**Action to Take: SELL the UltraShort Brazil ETF (BZQ).**

Good Investing!

Graham Summers
